Dear Mr. Weisberg,

Enclosed is my check for $13.00. Please send me your book, Frame-Up: The Martin Luther King / James Earl Ray case.

I would like to know the current status of Mr. Ray's case. Is he still trying to get a trial and do you have anything to do with his case anymore? I feel that his imprisonment is a travesty because there has never been a trial to prove his guilt or innocence.

I am also sending you various newspaper articles on the JFK assassination. If it is possible I would appreciate your opinions on these articles. Please keep these articles as I have other copies.

I have some further questions and if you would answer them I would be very grateful.

In one of the articles I'm sending you, Humes and Boswell stand by the autopsy and their findings. If they are lying, what do you think their motives are? Why wouldn't they tell the truth nearly 30 years later?

I don't know what to make of their contentions. This autopsy was one of the worst in modern civilization yet they talk as if everything was

done correctly, according to standard medical procedure.

I would also like to know your opinion of the book, JFK: Conspiracy of Silence by Dr. Charles Crenshaw.

I'd also like to ask you about the impending release of some of the files. Has any files been released yet? There have been media reports that some files are to be released soon but I have heard nothing since and I'm wondering what you may know about this.

Without trying to pry into your personal business, I have wondered whether you ever feared for your life while you were writing and researching in the 1960's and 1970's because as we know many people that were connected to the JFK case died under murky circumstances.

I was also wondering whether there was any monetary cost that you had to pay the archives every time you ~~sued~~ sued them or every time they sent you files or document. I know that you have alot of files and I was very curious as to how it was possible over these years for you to acquire them.

Lastly was your opinion of Oliver Stone's movie good or bad? Was it good in that it educated people who before were unaware or disinterested? Was it

bad due to the fact that it mixed fact with fiction to acheive it's aims? Is it true that you advised or counseled Stone at the outset of the making of this movie?

Also do you plan on writing any more books on the JFK assassination? Maybe a book that details all the current affairs or theories that you have knowledge on?

In closing, I'd like to tell you ~~that~~ that I consider you to be a true patriot who has devoted his life to trying to get the truth out to the American public. I hope you don't consider my questions nosey or bothersome, I am just fascinated by your writing and ~~research~~ researching and what kind of life that you might have had to lead in order to acheive all that you have.

Many thanks,

Scott Wilson
